

Battery Protection, Voltage Regulator, Voltage Detector, EEPROM, Magnetic and Temperature Sensors, RTC, 32 KHz Crystals

Advanced Thermal Solutions, Inc. (ATS) is a complete thermal solutions provider. ATS manufactures more than 5,000 types of high- and ultra-performance heat sinks. They offer industry-leading liquid cooling solutions, the broadest off-the-shelf heat pipe line on the market, expert consulting and design services, research-quality test equipment, and leading-edge R&D.

Microprocessors, GPU, Video Cards, motherboard chipsets, embedded processors and graphics processors for servers, workstations and personal computers, and embedded systems applications.

AC and DC relays for applications including telecommunications systems, computer peripheral and office automation equipment, home appliances, security systems, test and measurement devices, and industrial controls. Zettler Magnetics has the design and manufacturing capability to provide custom designs for the most specialized applications with products including epoxy sealed power transformers, open frame, low profile, switching transformers and chokes, toroids for current sensing, zero phase current sensor, current transformers, PFC chokes and large power line filter inductors.

High Voltage and High Current Operational Amplifiers, PWM Amplifiers, Sine Wave References

10GB Ethernet & Multi-Gig Ethernet PHYS-Aquantia is a leader in the design, development, and marketing of advanced high-speed communications ICs in the data center, enterprise infrastructure, and access markets. Their semiconductor solutions are designed to alleviate network bandwidth bottlenecks, deliver leading-edge data speeds at significantly reduced system power consumption and enable the development of next generation computing and communications infrastructure necessary to address the explosive growth of global IP traffic.

Azoteq offers sensing solutions for consumer electronics, remote controls, wearables, PC peripherals, the IoT and security applications.

Mil/Aero Circular and Rectangular Connectors and Cable Assemblies, Expanded Beam Fiber Optic Connectors and Assemblies, Hermetic Connectors, RF Connectors, Cin::APSE Compression Connectors, D-Subs, Barrier Blocks, RF and Microwave Cable Assemblies

Aluminum Electrolytic, Mica Capacitors, AC Film Capacitors, and DC Film Capacitors

Largest molder of insert-molded knobs and handles, and flexibility with injection, compression and transfer presses to mold both thermoset and thermoplastic components, mold custom plastic parts for the automotive, food services, oil & gas industries, and more

LED Panel Indicators, Thru-hole and SMT Circuit Board Indicators, LED Light Pipes, LED Lighting Solutions

Leading global provider of Discrete, Analog and Logic semiconductors serving the consumer electronics, computing, and communications, industrial and automotive markets. Products include MOSFETs, Diodes, Rectifiers, Transistors, Protection Devices, Gate drivers, AC/DC and DC/DC Convertors, Switching Regulators, LED Drivers, Hall Sensors, LDOs, Logic Devices, Motor Controllers, USB Switches, USB Chargers IC, Audio Solutions, PCIe Switches, PCIe/PCI Bridges, Analog Switches, Bus Switches, Protocol Switches, Display Interface Switches, Buffers, Level Shifters, UART, LVDS, Clocks and Timing Solutions

EAO Corporation is a global technology leader and manufacturer of Human Machine (HMI) Systems and Components serving the transportation, machinery, heavy duty, lifting and moving, specialty vehicle, medical and automotive markets. Intuitive development skills along with global manufacturing capabilities, worldwide supply chains, and superior project and consultation management result in complete and innovative HMI Systems. HMI Components include award winning pushbuttons, indicators, emergency stop switches, rotary selectors, keylocks, and more

Board-to-Board, Wire-to-Board, Stacking, Hermaphroditic, DIN, High-speed Backplane, and High-current, PCB Connector Solutions, Backplane and Cable Assemblies

Embedded Boards, IoT/M2M Components and Solutions, Software and Solution Design Services, People/Passenger Counters, Facial Recognition Systems, Rugged Mobile and Stationary Computers, Portable and Body-Worn Computers. Special expertise in ruggedization and certifications to stringent and demanding requirements, such as military, transportation, medical, and industrial.

Mixed Signal ASICs and SoCs: As a first-tier ASIC service provider, Faraday integrates design expertise, system know-how, innovative technology and total comprehension of all customer requirements.

Aluminum Electrolytic, Metalized Film, Power Film, Supercapacitors (Ultra Capacitors)

InnoSenT is one of the leading suppliers of radar technology currently in automotive and industrial markets with standard products and customer-specific solutions. These primarily include radar applications in the safety (e.g. securing of areas, cut-off and warning functions), comfort (e.g. automatic switching and controls) and environmental (e.g. reduction of energy and water consumption using on-demand control) sectors.

Embedded Storage Products Including: eMMC, MCP, DDR3/3L, mSATA, M.2 SATA, microSD

Littelfuse offers the industry's broadest and deepest portfolio of circuit protection products, including fuses, PTCs, TVS Diodes and Arrays, Thyristors, and MOVs. Littelfuse also offers a growing portfolio of power semiconductors, heavy-duty switches, magnetic, optical, electromechanical, and temperature sensors; and products that provide safe control and distribution of electrical power.

Murata is a global leader in the design, manufacture and supply of advanced electronic materials, leading edge electronic components, and multi-functional, high-density modules

AC and DC Axial Fans, DC Blowers, DC Impellers, Fan Trays, Weather Resistant and Wet Location

Power and Precision Wire-Wound Resistors, Heat-sinkable Resistors, Thin-film Resistors

Sensirion is the leading manufacturer of high-quality sensors and sensor solutions for the measurement and control of humidity, and of gas and liquid flows

32 KHz Crystals

Standard and Custom Passive LCD, TFT LCD, OLED, AMOLED Displays, and Camera Modules

Standard and Custom 50/60 Hz Power Transformers and Epoxy Sealed Power Transformers, Open Frame and Low Profile Power Transformers, SMPS Switching Transformers and Chokes, Toroids for Current Sensing, Zero Phase Current Sensor, Current Transformers, PFC Chokes and Large Power Line Filter Inductors
